MANY CALLS FOR COLLEGE MEN

Within ten months the dairy department of the Missouri College of Agriculture has received calls for 89 men trained here; 31 for work in creameries and condenseries, 25 as herd and dairy managers, 18 as teachers and research workers, 5 as creamery specialists and 10 others in a variety of similar positions. These men are in demand at salaries ranging from \$1,500 to \$4,000 a year—because four years in college work in scientific agriculture enables a man to render highly specialized service.

Get a ten or twenty acre farm and then you will always have a job, and one of the busiest.

Missouri will have a chance, come the second of next month, to provide for a new state constitution, than which few things are more to be desired if Missouri is to keep step with the other forward-facing states in the Union.—Springfield Republican.

NEGLECTED RURAL SCHOOLS

The complaint frequently made of unsatisfactory schools in country districts, is often due not so much to failure of appropriations, as a lack of co-operation on the part of parents, many of whom keep their children out of school when they need their work. One farmer remarked that his boy was worth \$1,000 for work during the harvest season, but he was only an expense if he went to school.

In Colorado it was found that nearly 5,000 children were being kept out of school about ten weeks each year to do farm work.

Any community that tolerates poor school attendance is not going to raise a generation of young people that can compete in these days of mental efficiency.—Springfield Republican.

HOW TO GET RID OF

GRASSHOPPERS

Columbia, Mo., July 19.—Nearly every summer grasshoppers are the plague of the farmer's existence. To help the farmers combat this plague T. J. Talbert of the agricultural extension service of the University of Missouri has worked out a poison bait that will do much to rid the farms of this pest. The bait is made as follows:

Mix thoroughly, in a tub or half barrel, 20 pounds of wheat bran and 1 pound of paris green or white arsenic. In a separate receptacle, mix 3½ gallons of water with 2 quarts of molasses or syrup of a cheap grade. To this sweetened water, add three oranges or lemons, chopped fine. Add this mixture to the wheat bran and poison and mix thoroughly. The poison bait is then ready to use. The mixture should be moist and crumbly.

The poison bran should be sown broadcast like wheat or oats over the infested fields during the early morning hours, Mr. Talbert said. The quantity mentioned will sow from three to five acres. Usually it will kill the grasshoppers in from six to forty-eight hours after they have eaten the poison. It is often advisable to sow a strip of the poison mixture along the fence rows or weed and grass grown ravines from which the hoppers emerge during the morning.

The first sowing of the poison bait should kill from 60 to 80 per cent of the hoppers present. Since the insects fly readily from one field to another, it may be necessary in some localities to sow the poison bait about every week or ten days until the pest is controlled. If the poison bait is properly prepared and sown, there is no danger of poisoning birds or stock, Mr. Talbert assured.

Chase & Sanborn's coffee in bulk and package at Armstrong's. Phone 172.

ONE DOLLAR SAVED REPRESENTS TEN DOLLARS EARNED

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he can not be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars.

NOTICE

On August 1, a circulating library will be opened at 801 Frisco avenue. For particulars phone 242-J. 816

BILIOUSNESS AND CONSTIPATION

"For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally," writes Mrs. Rosa Potts, Birmingham, Ala.

CANTALOUPE

10 cents to 20 cents each at Saxe's Market, phone 112. 10c3
